

Subject: Welcome to the Cresco AI Early Access Waitlist

---

Hey there,

Welcome to Cresco AI.

You're officially on the early access waitlist and among the first people getting access to what we're building.

Cresco AI is designed to help businesses automate customer conversations directly on WhatsApp using AI - reducing stress, saving time, and making communication faster and easier.

Right now, we're actively preparing for launch and improving the platform before opening access to our first users.

As an early waitlist member, you'll be among the first to:

- test the platform
- access new features early
- receive important launch updates
- help shape the future of Cresco AI through feedback

We're currently focused on building a smarter and simpler way for businesses to handle customer communication without spending all day replying to chats manually.

This is only the beginning.

Over the next few days, we'll be sharing:

- product updates
- feature previews
- launch information
- early access announcements

We're excited to have you here early.

Welcome to Cresco AI.

- Team Cresco AI
